

MATERIAL SAFETY DATA SHEET

1 PRODUCT IDENTIFICATION

1.1 Product Details & Contact Point

Product Name : TG GLOSS WHITE
 Product Code : TG 011
 Supplier : Petri Jaya Hai Kuang Sdn Bhd
 Designation :
 Telephone No : 03-4042 0071
 Fax No : 03-4042 3425
 Date : 5/9/2016

2 COMPOSITION/INFORMATION ON INGREDIENT

CHEMICAL CONTENTS : Resins P, White 7 Ethylene glycol monobutyl ether, Butyl diglycol acetate, polyoxysiloxane.

3 PHYSICAL AND CHEMICAL PROPERTIES

Appearance : Medium build
 Colour : Opaque white
 Solubility in Water : Insoluble
 Softening Point : 70 C
 Solubility in Aromatic solvents : Limited
 Recommended diluents : SS237/SS136 or SS152
 HAZARD IDENTIFICATION

Do not mixed any unidentified or unapproved chemicals into the product to avoid unnecessary chemical reactions.

5 FIRST AID MEASURES

Ingestion : Wash out mouth with water, seek medical aid if ill symptom persist.
 Eye contact : Wash with plenty of water while holding the eyelids apart for about 5 minutes. Apply eyewash solution. Obtain medical attention if ill effect occur.
 Skin Contact : Wash affected skin area with soap and plenty of water, wipe dry.
 Inhalation : No emergency are anticipated

6 FIRE FIGHTING MEASURES

Extinguishing Media : Water, CO2
 Fire Fighting Special Hazards : Avoid breathing smoke, fumes and decomposition products
 As in any fire, wear self-contained breathing apparatus pressure-demand MSHA/NIOSH (approved or equivalent) and full protective gear.

7 ACCIDENTAL RELEASE MEASURE

Leak / Spill : Clean-up using scraper and dispose / transfer into another container. Wipe dry with rag and some solvents. Smoking is strictly prohibited.

8 HANDLING & STORAGE

Handling : Use rubber glove while handling the product to minimize incidence directly in contact. No smoking.
 Storage : Store the product in a dry cool well ventilated space. Avoid direct sunlight. Keep the container tightly close.
 Keep away from any electrical supply sources.

9 EXPOSURE CONTROL AND PERSONAL PROTECTION

Exposure Limit : -N/A-
 Personal Protection : Use goggle gloves and safety shoes for extra protection.

10 STABILITY & REACTIVITY

Conditions to Avoid : Stay away from any ignition sources and direct sunlight
 Incompatibles : The product is not compatible with water.
 Hazardous : Combustion may produce carbon monoxide, carbon dioxide
 Combustion

Shelf-Life : As long as the packing is tightly closed. Hardened upon long hours of exposure to air.

11 TOXICOLOGICAL INFORMATION

Effects of Overexposure : Prolong exposure to the product may (result in inhaling chemical fumes) cause dizziness, nausea and vomiting.

12 ECOLOGICAL INFORMATION

The product is not biodegradable.

13 DISPOSAL INFORMATION

Disposal of the product is in accordance with the requirement of local council and Department of Environment(DOE).

14 TRANSPORT INFORMATION

UN Number : 1268
 Transportation of the goods must be in its original air-tight container and must be placed upright.

15 REGULATORY INFORMATION

The product is classified as flammable. Safety precaution must follow strictly. No smoking while handling the product. Keep container properly closed.
