

MASTER SAFETY DATA SHEET

20/6/26

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

DOW EUROPE GMBH

CH-8810 HORGEN SWITZERLAND

MEDICAL EMERGENCY PHONE NO from ... 31 115 694 982 (THE NETHERLANDS)
(ASK FOR MEDICAL DEPARTMENT)

Product Name: **VORATRON* EC 132 POLYOL**

LV70: 79129

Issue Date: Oct. 02

Ref: SC011

Use of the substance/preparation

Component(s) for the manufacture of urethane polymers.

2. COMPOSITION/INFORMATION ON INGREDIENTS

Formulated polyol
Filler

3. HAZARDS IDENTIFICATION

This product is not hazardous according to EC criteria.

4. FIRST-AID MEASURES

Never give fluids or induce vomiting if patient is unconscious or is having convulsions.

Inhalation

Move person to fresh air; if effects occur, consult a physician.

Skin Contact

Remove contaminated clothing. Wash skin with plenty of water.

* Trademark of The Dow Chemical Company.

MASTER SAFETY DATA SHEET

20/6/26

VORATRON* EC 132 POLYOL

Eye Contact

Flush eyes thoroughly with water for several minutes. Remove contact lenses after initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist. Consult medical personnel.

Ingestion

Seek medical attention immediately.

Note to Physician

No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

5. FIRE-FIGHTING MEASURES**Extinguishing Media**

Water fog or fine spray. Carbon dioxide. Alcohol resistant foam. Dry chemical fire extinguishers.

Hazardous Combustion Products

Combustion products may include and are not limited to: Carbon oxides. Incomplete combustion may lead to the build-up of toxic pyrolysis products.

Protection of Firefighters

Wear positive-pressure, self-contained breathing apparatus.

Specific Fire or Explosion Hazards

Will support combustion.

Specific Methods of Firefighting

Fire debris must be disposed of in accordance with local regulations. Do not discharge extinguishing waters into streams, rivers and lakes.

6. ACCIDENTAL RELEASE MEASURES**Personal Precautions**

Wear adequate personal protective equipment, see Section 8, EXPOSURE CONTROLS/PERSONAL PROTECTION. Spills may cause very slippery surfaces.

Environmental Precautions

Dike to prevent contamination of ground and surface water, then transfer into closed containers. Recover if possible, or dispose of according to applicable regulations, see Section 13, DISPOSAL CONSIDERATIONS.

MASTER SAFETY DATA SHEET

20/6/26

VORATRON* EC 132 POLYOL

Methods of Cleaning Up

Spills should be contained by, and covered with large quantities of sand, earth or any other readily available absorbent material which is then brushed in vigorously to assist absorption. The mixture can then be collected into drums and removed for disposal. Wash area from residues with soap and water and rinse down. Contaminated water should be retained, not being allowed to flow into ground or surface water.

7. HANDLING AND STORAGE**Handling**

Since polyols are handled together with diisocyanates, proper distinction between these two kinds of products is essential in order to avoid undesired mixing resulting in uncontrolled polymerisation.

Storage

Keep container tightly closed; product is hygroscopic.

- Storage Temperature and Shelf-Life

Store between 15 and 25 deg.C. Shelf life is 6 months.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION**Exposure Guidelines**

None established for the preparation.

Engineering Controls

Good general ventilation should be sufficient for most conditions.

Personal Protective Equipment**Respiratory Protection**

For most conditions, no respiratory protection is needed; however, if handling at elevated temperature without sufficient ventilation or in presence of aerosols, use an approved air-purifying respirator.

Skin Protection

Wear gloves made of: PVC. Break-through time not established. Discard immediately after contamination.

Wear clean, long-sleeved, body-covering clothing. After work and before eating, drinking or smoking wash and clean yourself carefully with soap and water. Contaminated clothing should be washed and/or dry cleaned before re-use.

Eye/Face Protection

Use safety glasses.

VORATRON* EC 132 POLYOL

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	: liquid
Colour	: beige
Odour	: characteristic
Specific gravity	: 1,45 g/cm ³ (20 deg.C)
Rel. vapour density (air=1)	: >1
Vapour pressure	: negligible
Water solubility	: not determined
Flash point	: > 200 deg.C
Viscosity	: 2250 mPa.s (20 deg.C)

10. STABILITY AND REACTIVITY

Chemical Stability

The product is stable but hygroscopic.

Materials to Avoid

Acids. Oxidising agents.

Hazardous Decomposition Products

None under normal conditions of storage and use.

11. TOXICOLOGICAL INFORMATION

Assessments based on studies of the individual components of the material.

Acute toxicity

Ingestion

The oral LD50 for rats is >2000 mg/kg.

Skin Contact

Essentially nonirritating to the skin.

The LD50 for skin absorption in rabbits is >2000 mg/kg.

Inhalation

Not expected to present a significant hazard due to physical properties.

Eye Contact

May cause slight temporary eye irritation. Solid may cause irritation or corneal injury due to mechanical action.

MASTER SAFETY DATA SHEET

20/6/26
VORATRON* EC 132 POLYOL

12. ECOLOGICAL INFORMATION

Assessment largely or completely based on data for similar material(s).

Mobility and Bioaccumulation Potential

No appreciable volatilization from water to air is expected.

Degradation

Material is expected to degrade only slowly in the environment.

Aquatic Toxicity

Despite the very slow biodegradation rate the product should not present an environmental hazard in the water/soil compartment.

13. DISPOSAL CONSIDERATIONS

Disposal

Incineration under approved, controlled conditions using incinerators suitable or designed for the disposal of hazardous chemical wastes, is the preferred method for disposal. The generation of waste should be avoided or minimized wherever possible.

14. TRANSPORT INFORMATION

Product is not classified for any mode of transportation.

15. REGULATORY INFORMATION

EC Classification and User Label Information

This product does not require classification according to the criteria of the Commission of the European Communities.

EINECS Status

All components of this product are in compliance with EINECS.

16. OTHER INFORMATION

No other information.

This Master Safety Data Sheet complies with basic EU regulatory requirements for Safety Data Sheets on the date of publication, and is intended for translation and adaptation into European National documents. This document should NOT be relied upon for compliance with the laws and regulations of individual countries without the appropriate local translations and adaptations. It is your responsibility to ensure that any Safety Data Sheet taken or adapted from this system for re-distribution or use complies with all the laws and regulations which apply to any such use or re-distribution.
